Zurich, January 14, 2026

**Message
to the 14th National Congress of the Communist Party of Vietnam
19 to 25 January 2026 in Hanoi**

Dear Secretary General
Dear Delegates
Dear Comrades and Friends

The Switzerland-Vietnam Association is honoured to send you our best wishes for a successful Party Congress. May this congress bring new important milestones regarding the development of Vietnam.

The international community is living through difficult times. We see wars on all continents. Military power replaces a roles-based order. We see that instead of fulfilling the Millennium Goals, the gap between the rich and the poor is growing globally. The environment is neglected.

In this reality Vietnam is different. Looking back on 40 years of Doi Moi, we see an enormous development in the living standard of the people, but also in the place of Vietnam in the international community. Indeed, Vietnam shows that another, a positive path is possible.

Looking at your work to realize the slogan "leave no one behind" we are impressed, also when we see how you followed it after the typhoons and heavy floods.

Dear Comrades, let us simply wish you a successful Congress with wise decisions in favour of your people and your contribution to peace in the world.

In solidarity and friendship

Switzerland-Vietnam Association

Anjuska Weil
